## ANNUAL MAINTENANCE AGREEMENT

In a continuing effort to better serve our customers, we are offering a yearly maintenance program for your irrigation system. This maintenance Agreement will include a minimum of two (2) scheduled maintenance calls, with additional calls scheduled as required.

Please take a moment to review the agreement. It explains in detail the services offered. Everything from the "spring start-up" to the "priority list" is designed to protect your investment dollars, both in landscaping and in the system itself. A properly maintained irrigation system will also save money on water usage.

In order to become a maintenance customer, we will need to inspect your existing system to ensure it is in good operational condition.

The cost of our annual Maintenance Agreement starts at \$120.00 per year for a residential system with up to 4 zones, then \$20.00 per zone for each additional zone. The cost for a commercial system starts at \$135.00 with up to 4 zones, then \$25.00 for each additional zone. Additional calls can be added for as little as \$98.00 per hour.

Our goal is "Quality, Responsive Service"!
